HERE'S LUXURY!

Rex Sedan Tops

For All-Year Motoring

WINTER

Winter with its cold, biting winds, rain, sleet, and driving snow means, unless a closed car is secured, the Rex Top will protect you against the bitterest blizzard. Here's luxury, indeed, summer comfort in winter weather. Wind-down any of heavy plate glass with anti-rattle frames. The car equipped with a Rex Top would reach less than the "open-top" car and, therefore, is safer, cheaper, as much winter ready.

SUMMER

When bright days and long evenings make driving a delight, much is added to the appearance and comfort of a car by equipping it with a Rex Top. With all gears removed, you have the ideal four-weather car, while storm curtains are handy in case of rain. With rear side panels in place, passengers are protected against dust and from careless drivers. This lightweight top causes a distinct saving in gasoline and tire expense.

Rubbers Must Fit to Wear

The leading shoe stores realize this. That is one reason why they always stock Dominion Rubber System rubbers.

Dealers know that rubbers must fit perfectly—must have the exact toe, heel and width of the shoe being worn—in order to be comfortable and to give long and satisfactory wear. They know, too, that

Dominion Rubber System Rubbers

include shapes and sizes to perfectly fit the shoes of every member of the family—men, women, boys and girls.

They know, too, that Dominion Rubber System rubbers have the sturdy quality and expert workmanship to give you the kind of wear you have a right to expect.

These are some of the reasons why the leading stores sell and recommend Dominion Rubber System rubbers, and why you should insist on having them.

The Brunswick Method of Reproduction

Judge by the Tone and the Name

That's how Brunswicks are bought—after hearing and comparing.

Each purchase represents intelligent and deliberate selection of an instrument where **NAME** has come to signify perfection of TONE.

Its Exclusive Features FIRST—the Ultona

THE ULTONA is an exclusive Brunswick invention which plays ALL records exactly as they should be played. For a more exact of the name, the ULTONA is constantly adjusted to play all makes of records with the correct diaphragm, groove needle and the exact weight.

SECOND—the Oval, All-wood Horn

THE ALL-WOOD OVAL HORN—best like a voice—is another exclusive Brunswick feature. Its oval shape and soft, rounded form, which makes an air problem is completely for allowing tone waves to unfold in a way that is rich, mellow, and above all, natural.

FIND OUT FOR YOURSELF!

Before you buy ANY phonograph—just try **ANY** Brunswick. If you will let your ears be the judge you cannot make a mistake.

Ask any Brunswick dealer to play over your favorite record—any record.

Special Note
Every Brunswick dealer has a record equal to that of the famous Brunswick records. What to look for in a Brunswick Phonograph? The name! Every record has a Brunswick name on it, and every record is guaranteed to be a Brunswick record. Write for a list of all our dealers in your area.

"That is something," I responded.

"I may not say that this machine must have gone out and been at least three years ago. It's that long we've been up and over the probability book of the old."

The book of the machine is that of the machine, however.

He was one of the lightning founders of the old school, both ground and entrepreneur. His reward in the business world and yet equally conscious of his obligations to his flock and communal, emulated Godless sainted Ebenezer. Tomorrow's Silverplate

When you are made for new homes, for gift giving and for additions to the family's silverplate service, all consider silverplate of finest quality—nothing but the best in silverplate ware as a good investment these days.

The suggestion of the best in silverplate is not new to those who own 1947 Rogers Bros. Silverplate. The idea is more than seventy years old, to be sure, but it is more than seventy years ago that the brand of silverplate first gained the public preference which it still holds.

If you would have silverplate that has long, that stands admiration, that is always a good investment, then choose the best known brand. But ask for it by full name—"1947 Rogers Bros." Then you can be sure you will get exactly what you want.

Goodyear Tire Mileage Costs Less Than Before The War

These are examples of Goodyear mileages above the average—mileages impossible six years ago. The increased Goodyear quality and broader Goodyear service which have made possible these greater mileages will also enable you to keep down your tire costs.

Goodyear Tires cost you less per year or per mile than they did before the war.

The price of Goodyear Tires in that time has increased less than 2% on some sizes, and only 15% on any size—while most commodities have increased over 100%.

We have been able to keep down the price of tires largely because of Goodyear's economical system of distribution (direct from factory to Service Station, saving jobber's profit and reducing shipping cost).

This slight increase is overshadowed by the greater mileage made possible by increased Goodyear Quality and broader Goodyear Service.

Owners now report cost-per-mile much below that of five years ago.

You, too, can secure fair Goodyear prices and long Goodyear mileage by calling on the nearest Goodyear Service Station Dealer.

Services of Silver

of Exquisite Workmanship and Intrinsic Quality

SILVER has always been one of the tastes that bind members of a family to the home. Silver links the past to the present. A heritage of silver is our proud possession or our friendly envy.

Silver has played its part in history and romance, as well as Divorces, Rubens, Poets and Enriches.

To the young wife and the bride-to-be, what an incentive for home-making is the gift of a piece of silver, and in the after-glow of life, what a pleasure to pass on a service of silver to a beloved daughter or a well-beloved grandchild. One instinctively associates beautiful silver with Mappin & Webb. For one hundred and twenty-three years, these famous English silversmiths have gone on producing the kind of silver and plate that endures. Everything for the table—for the dining room—for personal adornment—that can be made in silver, is made in silver by Mappin & Webb.

The Sterling Silver Service should be for state occasions. For daily use in the home, "Princess's Place" assures every requirement of design, beauty, utility and years of service. In fact, "Princess's Place"—because of its unlimited variety of patterns and individual pieces—are often chosen by those who are purchasing a complete service of silver. "Princess's Place" is made in the Mappin & Webb factory in Sheffield, England, and has been created by British designers to all parts of the world.

If you are ready to choose a pattern in Sterling Silver or Princess's Place, let us send you the Mappin & Webb Silver Book, showing the latest designs and other patterns suggested by the wonderful Mappin & Webb silversmiths.
